Product Summary

Reliable Access at Broadband Speeds

Wyoming.com Wireless Broadband provides dependable access to your location and the Internet at broadband speeds. Available to homes that are within Wyoming.com's Wireless coverage areas, it supplies sufficient bandwidth to support your home needs and provide a stable and reliable connection for Internet, video and phone services.

Wyoming.com Wireless Broadband is a good fit:

- For remote home locations that aren't able to connect via DSL or cable;
- Consistent, fast download speeds for files, web browsing, videos, etc.;
- A complete, bundled Internet and phone service.

Wyoming.com deploys all the necessary equipment and sets up the service, then manages and monitors the network to ensure it's working for you.

Connectivity

Wyoming.com Wireless Broadband Service allows you to:

- Enjoy sufficient bandwidth to support your home Internet, Entertainment, and Phone services:
- Rely on fully-managed and proactively monitored network access;
- Count on a single provider for all of your Internet and Phone needs .

Choose the connection that's right for your home!
